PROJECTS

Project Deck | Client: Logic Square Technologies
- Designed an app to streamline the management of cross-functional IT teams and clients with incorporated functionalities akin to those found in JIRA and Trello boards for efficient task tracking and collaboration.

ISBDC | Client: Non Disclosure
- Developed webapp for business advising, training, referrals, and a library of cultivated tools and resources to help small to mid-size businesses, based in Indiana

Tradehub Pro | Client: Non Disclosure
- Developed a replica app of Estimate-tool, enhancing it with features such as feedback management and scheduled templated campaigns to boost productivity.

Metro Railings | Client: Non Disclosure
- Handling the frontend dissected a pure JavaScript project and seamlessly transitioned it into a ReactJs, achieving a significant reduction in loading time from 10s to 0.5s. .

Agg-Connect | Client: Non Disclosure
- Developing a trucking system, handling all the aspects and challenges of the industry, with Google enabled Live tracking feature.
- Also worked on some modules in the Native app. .

HRMS | Client: Logic Square Technologies
- Developed both Admin and User side for an employee management interface, managing holidays, inventories, leaves, pay-slips and bank information to tax structure of individual employee, and everything in between.

Grouped | Client: Non Disclosure
- Integrated "Live Streaming" feature in this NextJs instant messaging and VOIP application, using Agora web and mobile streaming.
